

Geography 12

River Landforms on Topographic Maps

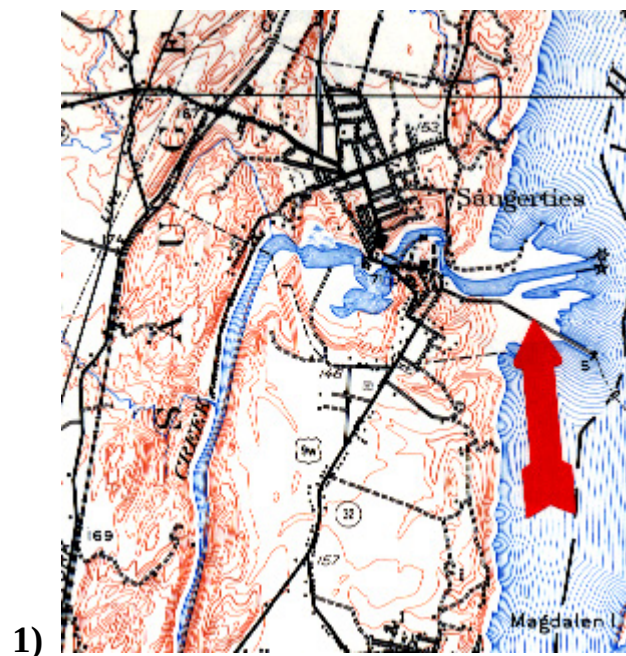

Match each topographic map with a term.

Respond via e-mail by giving the number of the topographic map and the corresponding letter of the appropriate term. This exercise is worth 7 marks.

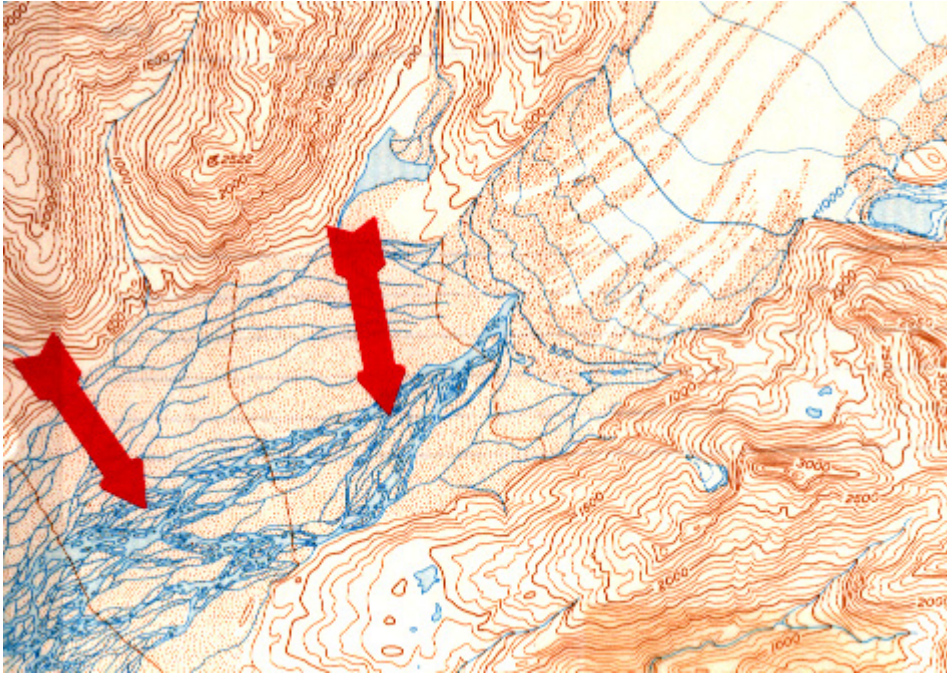

Terms

- | | |
|-----------------------|-------------------------------|
| a) distributaries | h) cut bank / outer bend |
| b) oxbow lake | i) point bar / slip off slope |
| c) trellis drainage | j) radial drainage |
| d) watershed | k) meanders |
| e) braided stream | l) delta |
| f) dendritic drainage | m) V shaped valley |
| g) floodplain | n) cutoff |
